

October 20, 2020

We are experiencing a new challenge in service to our members. A pandemic virus has prompted us to make changes in the way we conduct business to help keep members and staff safe. We have had to limit member exposure here at our office. We will make changes as safety is assured.

We are doing well but, only in time, will we be able to analyze how much of an impact Covid-19 has had on our credit union.

Thanks to Laura and staff for all the work necessary to keep business and operations running as smooth as possible.

We are still struggling to find new members. While this has been a struggle for sometime, we will make this our top priority and continue to do all that is possible to grow our membership.

We have a new website. We hope this will add more service and information for our members and work as an attraction to those looking for a credit union to service their needs.

Thanks to those who serve on our Supervisory Committee. We still have openings on this committee. We will continue to look for members to join this committee.

Thanks to my fellow board members for all their time and efforts in helping support this credit union. A special thanks to Katie and Debi for all of their work on our communications and social media.

Please all stay safe!!!

Sincerely,

Jim Miller
Board President
