

October, 18, 2001

Welcome All,

We have endured a full year of the Pandemic.

With the hard work and dedication of Laura and staff, working off site and changing hours and days of operation, we able to complete this year safely.

The Credit Union, also improved its' website and the member's ability to use online banking.

I am positive that we can meet any other challenges in the future, pertaining to Pandemics.

We are still struggling with our goals of new membership. While the year of the Pandemic, may have been a problem in this regard, it has been a challenge in the years before.

We will continue to explore and work in every way possible, to meet our goals. It has and will continue to be discussed in our meetings and planning sessions.

I would like to congratulate our two staff members who had employment anniversaries this month. Brianne, completed her second year. And Sandy, her first year. Thanks. to both, for all that they do.

Thank you, to Laura, who keeps this "ship" afloat. A lot of extra time and planning was needed to deal with a first of its kind, crisis.

And thanks, as always, to my fellow board members and the those of the site council. They are members, who with much time and work, do their best to keep our Credit Union, strong.

Thank You

Jim Miller
Board President
